hello.

i'm a photographer from tallinn, estonia who had opened digital world not far than half a year ago.

Now it's deep. Being still not familiar with PC i use internet mostly to see visual life 'outdoor' or just TO SEE. And to learn. Previous bookmark was showcase.

Now i'm glad to discover ZoneZero (kind of shoking, actually) where can't find anything seriously wrong. Great images with good page design and constructure. Even chat section looks clever done.

Clever, that's the word to describe the Zone.

Thank You very much.
