Hi! My name Andy Bezoukladnikov - photographer from Moscow. ZonZero, in my opinion, best photographic magazine on VEB. How I have learned(found out) about your magazine? Business in that I am going to do(make) photographic site in Russian. For this purpose I have bought the domain [www.photographer.ru](http://www.photographer.ru), which will open on September 30 1998.

Before to decide on such step, I investigated huge quantity(amount) of photographic sites INTERNET and has paid attention that Russian photographic sites do not like me. I would like to construct such site, which would satisfy my needs(requirements). And I shall do it.

So. ZonZero has all of themes, that does not suffice to me, but it(he) not in Russian, and many Russian photographers, including I, have no knowledge of foreign languages.

By the way, for this purpose to write this letter I use the program - interpreter.

About itself. To me 39 years. Was born well Ural. Now I live in Moscow. Is married. Two children. In a photo I am engaged since 14 years. In youth dreamed to become the biologist and collected kaktuses. Has bought the first camera photographing the moment of flowering kaktuses. It has affected all my destiny - instead of the biologist I became the photographer. All best,

Andy Bezoukladnikov
