Hi, wish I new who was reading this>_grin,

My name is Ernst-Ulrich Schafer and I've been surfing the web like crazy since the holidays when we upgrade the old 486 for our 15 yr old son. This is most likely the best web page of photography and photographers that I have yet to see. I've only taken a short look so far, but will study more in the days to come.

I myself have been photographing with B&W for 25 years now. I enjoy collecting B&W images, B&W photo books and B&W postcards. I tend to be very anti- cliché and yet want to find a very classic style for my images.

Best Regards, Ernst
