Dear Pedro,

During a recent trip to Greece, I visited with Elias Eliades from . He relayed to me that you had commented on my work on his site and told me about zonezero.com. I immediately took "a look" and was thrilled by zone zero! It is the best work I have seen anywhere on the web.

Some of my work recently was also put on (Greek Photo Web) and I have been corresponding with Massimo Pizzocarò. He is also a great fan of zone zero. Neither of these sites was interested (at least on line) in my favorite work from Mexico - people! Since you expressed an interest in my work, I would like to submit some to zone zero if that is possible. My current project is a book on man's loss of connection to the land.

I hope this address works. The one Elias gave me doesn't seem to.

Sincerely,

Glenda Kapsalis
