As a retired history professor, I particluarly enjoy reading reading the editorials by Meyer and Hernandez. My one regret about retiring in 1995 was that I did not get the chance to fully incorporate the internet into my classes as I would have done if still teaching.

I really like the galleries as photography is my hobby. I have switched to digital camera for most things except shots requiring a long telephoto (180 to 400 mm).

Thanks for presenting a very useful and informative site.
