Oh... you asked that I tell about myself...okey.

I consider myself an amateur photographer although I have been making photographs since 1968. I used to do mainly black and white, doing my own darkroom processing. When the cost of film and printing paper became prohibitive and when my Miranda Sensorex camera started to malfunction I stopped for a number of years. Then I got myself a Yashica T4, and challenged myself to make good photographs using only this simple camera. I was happy with the results. Two years ago I started learning Photoshop and a whole new world opened to me. I have been able to restore some of my favorite black and white photographs and make good computerized prints out of them. I am now trying to make a website where I can display some of my photographs and poems.

I have been looking into ZoneZero for about a year now...and finally I have decided to register and perhaps be a participant.

Hope you include me in your mailing list.

Thank you.

Bro. Manny.
