Good morning/afternoon/night,

I'm a freelance photographer and writer, working mainly on journalistic assignments. Subjects ranging from environment and health care through trade unions and railways to culture and architecture - in short, the lot. Sometimes I hate my work but usually I am quite happy. I like your magazine, it's in my bookmarks though I must admit I don't look you up often enough. So maybe putting me on your mailing list will help.

Thanks, best regards,

Liesbeth Sluiter

PS: I'd like to get as much information as possible on the transition to digital
