Hello ZoneZero:

I am a photographer and have been managing two digital portrait studios for about four years. I have seen a lot of changes with the quality of digital images and output.

I have a BFA from Ohio University and studies a little with Robert Henicken.

I really enjoy your site and hope to have a Virtural Reality site up and running in the next few months. Anyway, your site is excellent.

Great photographs!

Sincerely,

## William Scott
