Stephan Funke ARPS

I found you through the Agfa newsletters. At a first glance your website looks great. Found many interesting pics. But details later after more surfing.

I am 71 year old amateur photograph, lately specialized in theatre-photography ( to please my friends on the stage.) I made my ARPS last year in "THEATRICAL..."

I do both: to serv the theatre: on traditional silver halid, to please my imagination I do it digitally from the same negatives and slids. But the digital learning curve is not yet completed (and will never be). Will prepare a small portfolio for the experimental section.
