My name is Deborah Cruze and I found your page surfing photography sites on the web. I graduated from University of Nevada Reno with a BA in Art, photography emphasis, in 1999. I live in an isolated area and I'm not able to produce work right now due to the lack of space for a darkroom where I'm living, so its really great to see the work of so many talented others in one place online. I'm a big Joel-Peter Witkin fan (though my own work is nothing like his) and Allesandro Bavari's portfolio is really something, too. I have always had a passion for Mexican photography so it is great to see the work coming out of Latin America.

Thanks and keep up the great work.

Deborah Cruze
