Hello,

I like your goal's and willingness to open a space for a wonderful variety of artists. I am impressed with the look and clean feel of your site and showing the multiple languages next to one another is an excellent choice. In the near future I would be honored to add my imagery to your portfolio section. I have completed associates degrees in communication/broadcasting and fine art photography. I am now a junior at Washington University in St. Louis, Missouri, in the BFA photography program. I work with all types of media: digital, digital and conventional mix, silver & color, video, and enjoy altered imagery by a variety of media and methods.

I would like to be placed on your mailing list. Thank you.

Sincerely,

Jeff Ashbaugh
