Hi there

Firstly, my best wishes to this great site.

I am a professional photographer and an artist from IndiaI work mostly in Black and White but I like to see all and as much as I can.

I have always been searching new sources of education to further my knowledge in the field of photography, and this site " Zone Zero ", has been my all time favorite!!

I read / write /ask /answer a lot of stuff on greenspun.com but I was always looking for someplace where you get to see work of diverse kinds and not restricted to just Black and White or anything like that.

Finally let me come to THE point, I would like to get registered here and going further I would also like to submit some of my work samples very soon.

Thanks,
