Hello,

Please could you add me to your mailing list.

I am so glad that I am writing to someone real, I think that is what has drawn me to your site, something real.

I must admit I rarely use the internet, outside of checking my mails, even though I am fairly young I seem to have an aversion to all this technical stuff... anyway I am very glad I found you. I was looking up a site from Gerd Ludwig and somehow bumped into Zone-Zero. I'm just finishing a 3 year photography degree in the USA, my intention is to become involved in enviromental and charitable projects, so finding you is a real gift. Now I have the opportunity to see what other people are doing and to be motivated by their good work.

Look forward to hearing all the news and visiting the site often

Best Wishes

Nikki.
