Dear Pedro,

I was introduced to ZoneZero by my photography master - Marcelo Greco - in Brazil and, since then, I can not log out from ZZ.

I have found many many interesting things at ZZ and I am using it as reference in our local blog (where we share our work, thoughts and learning with Marcelo).

From portfolios to Gallery, not forgetting your articles that make us reflect about photography and about life.

The "The poetry of an image" touched me specially once I am studying Bresson and the Zen Archer and your points of view made me open my mind even further.

Just pasted it in our blog so we discuss it.

Keep up with the bright work. Anything needed from Brazil, let me know,

Best,

Bob Wollheim .
