Hello Pedro

Sorry about that - I didn't notice that this email was going to a person and not an automated listserv bot.

Here is a little about me...I am an avid amateur travel photographer based in Tokyo, Japan, and shoot mainly urban landscapes, city inhabitants, and architecture, as well as extensively documenting my life here in Japan. I work for the UN as a communications coordinator and do some event photography as part of my work.

Kind Regards

Kristen Elsby.
