Pedro,

My name is Robert McLeroy, I am a photographer at the San Antonio Express-News. I also teach photojournalism at the University of Texas at Austin. I would like your permission to use your website as a teaching tool for my class.

I discovered your site while researching the subject of altered photographs and found your excellent editorial about Patrick Schneider.

I would also find your calibration page useful for beginning photojournalists who are making the transition from analog to digital.

Espero su respuesta.

Muchismos Gracias

Robert McLeroy
