When the Theatre Research Center "Rodolfo Usigli" (CITRU) was founded in 1981, the photographic material of the Armando de Maria y Campos Archive became one of the materials that needed to be organized by the Phototheque of the Center. Since 1990 the new Audiovisual Materials Department had transformed into a workshop in which physical cleanliness and reorganization of the scattered materials was the main goal, looking to set up a series of Photo Shows in the Center's facilities in 1992.
