

Just like every other website, ZoneZero is fed by a server. We must keep up with the pace of the advancements in technology, so all the users of zonezero.com and now pedromeyer.com and fundacionpedromeyer.com, can have easy access to all of our information and images at an increasingly greater speed.

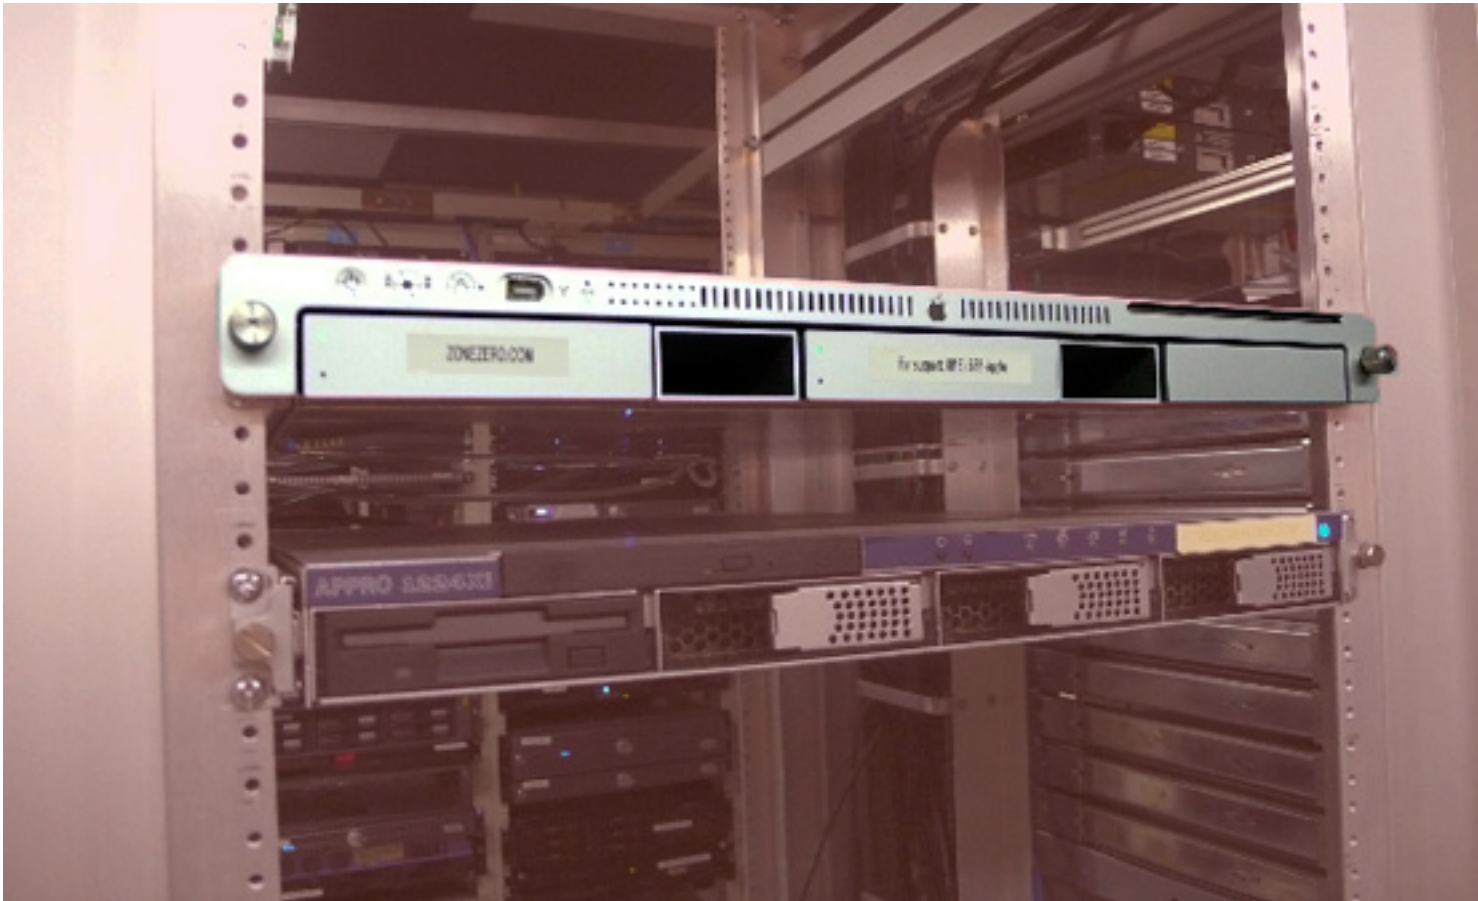

Since we get our feedback from you, we want to share with all the ZoneZero community, the visual history of our server.

Evolving
