

20:02 20/02 2002

February 20th is the date that something will happen that will never happen again:

At 8:02 p.m. this day, for one minute only, it will be 2002-2002-2002, or more accurately 20:02,20/02,2002

Because there are only 24 hours on the international clock, this will never happen again.

So why not celebrate this event?

We invite you to see the contributions that ZoneZero's community has shared with us.

El 20 de febrero es el día en que habrá de ocurrir algo que no se repetirá en la historia.

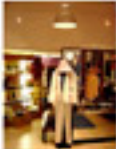

A las 8:02 pm, de este día, durante un minuto, será 2002-2002-2002, o para ser más precisos 20:02, 20/02,2002.

Debido a que el reloj internacional sólo tiene 24 horas, esto no volverá a suceder jamás.

Celebrems este momento tomando unas fotografías.
