

St. Valentine's Day

Written by ZoneZero

I am well aware that not all cultures enjoy the same special days for celebrating an event nor do so on the same day, in this case most of the western cultures celebrate Valentine's Day with variations. On the other hand, in the Chinese culture, for instance it's "The Night of the Sevens", In Japan and Korea it is called "White Day" which is of more recent origin and associated with marketing efforts by candy makers.
